

## Sumo Sushi & Bento's October delights

**S**umo Sushi & Bento, a homegrown family-friendly concept offers a great menu, relaxing ambience, and an affordable price point.

The new October specials from the restaurant, which consist of a set of appetizers, side dishes and drinks allows customers to easily add on to their regular orders.

The Natsu Miso is a great tasty appetizer that lets you experience a crispy crunch as you dig into the scrumptious chicken and eggplant. This dish of eggplant, chicken, seasonings and truffle oil is made to please and will surely have you snapping photos for social media before getting started with your meal.

It would be insane to visit a Japanese restaurant without ordering a plate of sushi, wouldn't it? The Shinobi has got all the essential bits – shrimp tempura and cucumber rolled together then topped with grilled salmon and crabstick salad and flavour blasted with teriyaki and sweet chili sauce. The dish explodes with flavours that do not overpower, but instead complement one another to create a mouthwatering bite size starter.
